

CNC-Controlled Travelling Head Press Systems

HAWKES

Hawkes offers you the new generation in CNC-controlled travelling head presses – the fastest and most reliable range to suit all production demands and budgets.

The Hawkes system is simple to operate and has the latest in operational safety features.

Job changing is fast, and you have total control of your production at all times, with clear vision of the cutting area, high accuracy cutting and maximum material yields.

The operating software and machine have been designed simultaneously for absolute compatibility.

Software for nesting regular shapes, such as circles, squares, rectangles etc, comes as standard on the machine. The software for nesting irregular shapes is available as an option.

The machine is the most rigid and robust available, dispersing maximum tonnage over the whole cutting area giving you a quality cut every time.

Innovative Supplier of Cutting Presses and Systems since 1975

Innovative Supplier of Cutting Solutions since 1975

HAWKES

Cutting force from 25 to 50 tons and upwards
Cutting widths up to 2500mm
Cutting head up to 1000 x 1000mm
Bespoke systems available on request

Suitable for the Widest Range of Applications

Suitable for cutting: automotive components, abrasives, cork, felt, textiles, foam, sponge, footwear, gaskets, rubber, seals, composites, medical products, packaging, foam packaging, paper, card, plastics and more.

Widest Choice
