

Travelling Head Presses

HAWKES

Hawkes offers you the most extensive range of manual Travelling Head Presses to suit all your production demands and budgets

Flexibility & Ease of Operation

Designed for maximum flexibility when using roll or sheet material, small or large tooling. No special skills are required to operate these presses. They are specifically designed to reduce operator fatigue. Excellent vision of the work area and simple operation ensures the operator is in control at all times.

Peace of mind with our fast back-up service

Hawkes Travelling Head Presses offer you reliability. Our team of service staff are always available to help you with queries and advice. We are keen to respond quickly to your needs with engineer on site support and fast spare parts back-up.

Value for money with no hidden costs

Our Travelling Head Presses are sold 'ready to run': complete with hydraulic oil, power lead, cutting board & instruction manual.

Efficiency

Maximum force is achieved using minimum electrical power consumption – this greatly reduces your running costs.

Robust construction

Presses are solid construction for durability & long life. With minimum deflection these presses are designed for maximum speed and high productivity. Built to cut the toughest jobs 24 hours a day. Larger head sizes are specifically designed to ensure quality cut is achieved when using larger tooling to allow no overhang of cutting plate.

Innovative Supplier of Cutting Presses and Systems since 1975

Innovative Supplier of Cutting Solutions since 1975

A wide choice of different models

From the smallest 20 Ton to the larger 80 Tons or more on request, Hawkes Travelling Head Presses are adaptable to a wide range of applications. Suitable for cutting a wide range of materials, including: Carpet, Felt, Card, Paper, Flooring, Sponge, Foam, Shoe Materials, Craft Products, Cork, Plastic, Leather, Rubber, Gasket Materials, Electronics, Textiles and many more

Specifications

Standard Travelling Head Presses range from 20 to 80 Tons with cutting bed from 1500x500mm to 2300x1000mm.

We can build to suit your production requirements – we welcome your request for a machine specific to you.

We detail below some of the more common sizes from our range:

MODEL	Cutting Force (ton)	Cutting Bed (mm)	Cutting Head (mm)	MODEL	Cutting Force (ton)	Cutting Bed (mm)	Cutting Head (mm)
TH20	20	1500x500	500x500	TH30	30	1750x650	650x650
TH20	20	2390x500	500x500	TH30	30	2000x650	650x650
TH25	25	1750x500	500x500	TH30	30	2390x900	900x900
TH25	25	2000x500	500x500	TH40	40	2000x760	760x760
TH25	25	2000x650	650x650	TH40	40	2390x760	760x760
TH25	25	2590x650	650x650	TH40	40	2390x900	900x900
TH25	25	2000x760	760x760	TH80	80	2300x1000	1000x1000

Hawkes showroom facilities
